

Planning an eco-friendly trip

You probably know of some good places to visit close to where you live. Think about where you could go with your family by bus or by train. Perhaps you could get there by bike or on inline skates? Or even simply on foot?

Tips for planning:

By bus and train

- Is there a bus or a train that goes to the place?
- Where are the closest bus stops or train stations?
- Do you need to change buses/trains?
- Look up the right connections in the timetable.
You can find timetables on the Web or you can ask for information by telephone, at the train station or at the office of the transport company.

By bike or when walking

- Get a city map that shows footpaths and bicycle lanes.
- What streets will you take?
- How long will the trip take?
- Check your bike (brakes, lamps, tyre pressure) before you set off.
